Dear Docents of the Museum of Flight,

Hi! I am just sending you this letter to tell you how I appreciate you paying for the bus and inviting us to the western museum of flight. I learned how planes fly and how planes can stay up. Also, I learned that the radio-controlled drones were the first remote controlled planes. We saw a lot of planes and went inside the DC-3. You all were nice. My favorite parts were when you let us get in the DC-3, play computers and get in the little plane to move the pedals and change directions. Thank you very much.

Thank You

Love and thanks you,  
Sofia Ramirez
