HORSE 911!

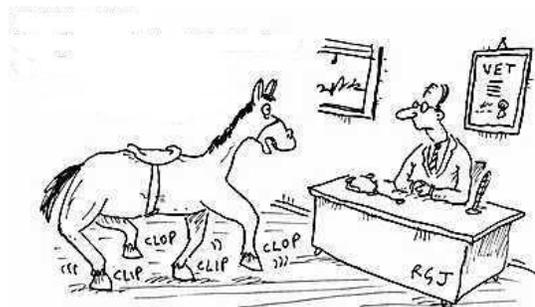

Presented by Ruth Sobeck, DVM

Thursday, November 20th at 7:00 pm at the Empty Saddle Club

Many of you may have had an emergency or what you thought was an emergency and didn't know what to do. If so, then you should attend the November PVPHA meeting to see what Dr. Ruth Sobeck has to offer. After learning what to do perhaps you won't feel so stressed because you will know how to make your horse more comfortable and help with the problem whether it's an illness or an accident. Ruth will go over: 1. Simple procedures that EVERY horse owner can do in case of an emergency 2. What items you should have in your tack room in preparation for those unforeseen events. 3. Dos and Don'ts of various emergencies. 4. New first aid items that are a must. This should be a most informative evening and we will leave time for questions and discussion. Also, we are going to put together a basic emergency kit to Ruth's specifications to be raffled off at the meeting. Tickets will be sold at the door.

Come one, come all!

Charlene O'Neil & Dale Allen
